*,Time quasi-periodic solutions to nonlinear  
Klein-Gordon equations“*

**Abstract:**

We discuss time quasi-periodic solutions to nonlinear Klein-Gordon equations on the torus in arbitrary dimensions. We will explain the result and the method, which is based on Anderson localization and algebraic geometry.

**Zeit:** Donnerstag, 22.3.2018, **14.00**

**Ort:** Arbeitsgruppe Gravitation, Währinger Straße 17,  
**Raum, 218, 2. Stock**
