# Boltzmann Lecture 2021

## “Boltzmann’s living legacy”

Freitag, 17. Dezember 2021, 17:00  
Einlass ab 16:30

Anmeldung  
erforderlich:  
[physik.univie.ac.at/  
boltzmann](https://physik.univie.ac.at/boltzmann)

**Daan Frenkel**  
Yusuf Hamied Department of Chemistry,  
University of Cambridge, England

Boltzmann created the language of statistical mechanics and posed many of the questions that still keep us busy almost 150 years later. In my talk I will pay attention to several of Boltzmann’s key contributions, how they were extended by others such as Gibbs, and why, in recent years, the concepts that Boltzmann introduced are as relevant as ever.

**Fakultät für Physik, Universität Wien**

Lise-Meitner-Hörsaal, 1. Stock

Haupteingang: Strudlhofgasse 4, 1090 Wien

Barrierefreier Eingang: Boltzmannngasse 5, 1090 Wien
